Solvents & Lubricants

# CLEAN YOUR BORE

## BORE CLEANERS & CONDITIONERS

### MC#7 EXTRA STRENGTH BORE CLEANER

- Ammonia Free!  
Quickly Removes:
- Corrosive ammo residue
  - Black powder
  - Plastic sabot ammunition residue
  - Pyrodex
  - Plastic shotgun wad fouling/layering
  - Copper
  - Carbon
  - Lead
  - Powder

#### SIZE

12 oz.  
(Aerosol with extension tube)

#### ITEM #

MC7XT

### MC#7 BORE CLEANER AND CONDITIONER

- Removes:
- Powder
  - Lead
  - Carbon
  - Copper
  - Plastic shotgun wad fouling
  - Corrosive ammo residue
  - Black powder
  - Plastic sabot ammunition residue
  - Pyrodex

#### SIZE

#### ITEM #

2 oz. (Resin bottle with applicator spout)	MC702
4 oz.	MC704
16 oz.	MC716
1 gal. (Tin)	MC7128

### SHOTGUN & CHOKE TUBE CLEANER

Designed specially to remove fouling from barrels, choke tubes and ports.

- Removes:
- Plastic wad fouling/layering
  - Lead shot fouling
  - Powder fouling
  - Plastic sabot ammunition residue
  - Carbon build-up in operating mechanism

#### SIZE

#### ITEM #

12 oz.  
(Aerosol with extension tube)

SG012

### AQUA CLEAN BORE CLEANER

- Environmentally friendly formula is nonflammable and non-abrasive with no harsh chemical odor.
- Removes:
- Copper
  - Pyrodex
  - Black powder
  - Corrosive ammo residue
  - Carbon
  - Lead
  - Powder

#### SIZE

#### ITEM #

4 oz.  
(With applicator spout)

ACB004

1 gal.

ACB128

### LEAD REMOVER

Quickly removes lead fouling from handguns, rifles and shotguns without the need for harsh abrasives or mechanical devices.

- Removes:
- Lead fouling
  - Powder fouling
  - Carbon

#### SIZE

#### ITEM #

4 oz.

LR504

### EXTRA STRENGTH COPPER REMOVER

Quickly removes copper or gilded metal fouling in firearm bores left by jacketed ammunition. Restores accuracy in old or neglected firearms.

#### SIZE

#### ITEM #

8 oz.

CR508

# CLEAN YOUR ACTION

## FIREARM ACTION CLEANERS

### AQUA CLEAN FIREARMS ACTION CLEANER/DEGREASER

Environmentally friendly formula quickly dissolves oil, grease and powder fouling in actions, receivers and trigger assemblies. Safe to use on all firearm surfaces. Nonflammable, non-corrosive and non-hazardous.

- Harmless to bluing, plastic, and polymers
  - VOC compliant, ships and stores as a non-regulated product
  - No harsh chemical odor
  - Safe to use on camouflage and painted finishes
  - Water soluble for easy clean-up
- Increase reliability in all firearms by removing:
- Dirt
  - Grime
  - Grease
  - Powder fouling
  - Oil
  - Soft carbon

#### SIZE

16 oz.  
(Pump sprayer)

#### ITEM #

ACD016

#### SIZE

12.5 oz.  
(Aerosol with extension tube)

#### ITEM #

PSQ12

### POLYMER SAFE QUICK SCRUB

This synthetic, safe cleaner is harmless to most polymers, plastics, and camouflage finishes, yet quickly flushes away grime and fouling. Perfect for cleaning actions and trigger assembly without disassembling. Works great on all firearms. Quickly evaporates. Safe to use on polymers, plastics, synthetic stocks, bluing, Teflon®, paint, camouflage and wood finishes.

Removes:

- Residue
- Powder fouling
- Soft carbon

### QUICK SCRUB III

Quick Scrub III removes fouling for trouble-free actions and precision trigger pulls without disassembling firearms. Quickly evaporates.

Removes:

- Residue
- Powder fouling
- Soft carbon

#### SIZE

15 oz.  
(Aerosol with extension tube)

#### ITEM #

DG315

# LUBRICATE FOR RELIABILITY

LUBRICANTS AND CLP'S

## SYNTHETIC ALL-WEATHER HIGH-TECH GREASE

Great for Nickel, Stainless, and Chrome Moly. An excellent choke tube lube.

Temperature Operating Range: -65°F to +350°F

Prevents Metal Damage in the Following Areas:

- Actions
- Shotgun hinges and hardware
- Frame rails
- Bolt-action locking lugs

Advantages:

- Quick and easy to apply
- Odorless
- Clings to metal surfaces
- Doesn't gum-up, wash off with water, melt when hot or stiffen when cold

Recommended Uses:

- Rifles
- Shotguns
- Handguns
- Sports equipment
- Fishing Tackle
- Compound bows

SIZE	ITEM #
10cc (handy syringe applicator)	G10CC

## FP-10 LUBRICANT ELITE

The additive MT-10 metal treatment dramatically increases lubricity between moving parts, with no build-up or changes in tolerance. Recommended for firearms, compound bows, sports equipment and fishing tackle.

Temperature Operating Range: -49°F to +500°F

- Cleans, lubricates & protects
- Outperforms Teflon® based products
- Reduces friction and wear
- Protects against metal damage
- Eliminates most malfunctions
- Minimizes lead and copper build-up

SIZE	ITEM #
4 oz. (With applicator spout)	FPL04
1 gal.	FPL128

## FP-10 COUNTER SALESMAN

Convenient size is easy to use and carry with you. Applicator tip. Retail point of purchase display contains 36- 5 oz bottles. Small footprint only 6" x 6" x 6".

SIZE	ITEM #
Counter Display	FPL036

# PROTECT

## STEP 4 PROTECT

SIZE	ITEM #	RUST PREVENT CORROSION INHIBITOR
6 oz. (Aerosol)	RP006	<p>Shooter's Choice Rust Prevent is a superior moisture displacing agent that provides a thin protective barrier coating that helps prevent rust and corrosion. Displaces water making it a must for humid and salt air conditions. Rust Prevent will rust proof and neutralize finger print acids on all rifles, shotguns and pistols.</p> <p>Protects Against:</p> <ul style="list-style-type: none"> <li>• Rust</li> <li>• Corrosion</li> <li>• Fingerprints &amp; body acids</li> <li>• Pitting</li> <li>• Salt air</li> </ul> <p>Recommended Uses:</p> <ul style="list-style-type: none"> <li>• Rifles</li> <li>• Shotguns</li> <li>• Handguns</li> <li>• All black powder muzzle loaders</li> <li>• In-line firearms</li> </ul>

### SHOOTER'S CHOICE ULTRASONIC CLEANING SOLUTION

Our Ultrasonic Cleaning Solution is especially formulated to work in ultrasonic cleaning tanks.

Advantages:

- Non-corrosive to aluminum or metal parts
- Effectively breaks up and removes fouling
- Cleans residue from actions, receivers, trigger assemblies and more
- Dissolves oil, grease and powder build-up
- Concentrated formula can be diluted
- Biodegradable
- Non-toxic, nonflammable and non-hazardous

SIZE	ITEM #
1 Gal. (Concentrated)	UCS128

### UNIVERSAL GUN CARE PACK

Everything you need to clean, lubricate and protect your firearms. Contains 3 of our best sellers: MC702, FPL04 and RP006. Save money by purchasing these items in one pack!

### SIZE ITEM #

3 PACK  
(Blister card)

CLP01

**THE ONLY DEVICE THAT CLEANS YOUR SHOTGUN, STORES IN THE BARREL AND EASILY TRAVELS WITH YOU.**

**100% SATISFACTION GUARANTEED!**

Manufactured and designed with 9 revolutionary features & functions not found in any other shotgun cleaning device in the world!

The Barrel Wizard makes all other shotgun cleaning devices **OBSOLETE!**

# The Barrel Wizard

**1** Unique Paper Towel Grip - Uses household paper towels eliminating the need for useless, loose fitting cleaning patches. Gives you a tighter and cleaner swipe saving you time and money with every cleaning pass.

**2** Threaded Tip Accepts Standard Cleaning Accessories - The Paper Towel Grip is threaded to accept all universal 5/16" x 27" standard cleaning accessories like brushes, mops, etc.

**3 & 4** Choke Tube & Chamber Cleaning Tool - Connect the Paper Towel Grip and the 12 GA. Snap Cap Handle together to form a choke tube and chamber cleaning tool, saving you the cost of purchasing an additional tool.

**6** Rigid & Sturdy Rod - Manufactured of aircraft grade aluminum with hard anodized finish and Delrin®. This sturdy telescoping rod easily adjusts from 27" - 40" to accommodate all barrel lengths. No more screwing together sections that can break or bend.

**7** Spring Loaded Snap Cap Protects - At the end of the Snap Cap Handle Assembly is a spring-loaded, high quality 12 GA. Snap Cap made from heavy nickel plated brass and Delrin®. Protects your firing mechanism from expensive damage.

**8** Built-in Oil Reservoir - Our 12 GA. Snap Cap Handle Assembly incorporates a handy oil storage reservoir for emergency purposes while in the field. Convenient and smart!

**9** Designed To Clean All Shotguns - The Barrel Wizard will clean all 12 GA., 16 GA. and 20 GA. Break Open, Pump, Auto and Bolt Action shotguns. (Stores in 12 GA. barrels only.)

SIZE	ITEM #
1 unit (Hanging blister pack)	BW001

SIZE	ITEM #
Additional 12 GA. Snap Cap	8WS12

**12 GA. ADDITIONAL SNAP CAP CAN BE PURCHASED SEPARATELY**

This 12 GA. Snap Cap (Item #8WS12) is a very high quality, precision accessory used to protect your firing mechanism from damage. Perfect for double barreled shot gun owners. Ours is the only professional snap cap with an integrated oil storage reservoir (see #7 and #8 above). Barrel Wizard comes with one 12 GA. Snap cap.

**Our products are constantly being tested on the newest firearms and ammunition to ensure that you always get high performance and top quality.**

Frank Ventimiglia is responsible for research & development at Shooter's Choice. He sends samples and prototype products to a specialized list of armorers, gunsmiths and top competitive shooters from the United States and the world. They fully evaluate our products in a multitude of situations, conditions and weather. Based on their usage and other testing, we won't ship a product unless it does what it's supposed to do and does it right.

Vice President  
Frank Ventimiglia

**Our guarantee means more than just giving back our customer's money...much more!**

When a customer calls and tells us that one of our products isn't performing the way it's supposed to, we ask a lot of questions, suggest a few solutions and ask them to give it one more try. However, if they just don't like the way it performs, we get their name & address and send them a refund. We've been doing business this way for over 30 years and we think it's the right way to operate a company. Especially one that is proud to stand behind each and every product we offer.

Thank you.

President Joe Ventimiglia manages overall operations

# THE 4 ESSENTIAL GUN CLEANING STEPS

To achieve maximum results, we recommend the following 4 steps. If you are accustomed to using a C.L.P. (Clean, Lube and Protect product), we recommend using Shooter's Choice FP-10 Lubricant Elite®.

**STEP 1 CLEAN BORE**

## CLEAN YOUR BORE OR BARREL

Most rifles and pistols have, what is called, a rifled bore. It is essential to clean and remove buildup on from the bore with a bore cleaner using a quality phosphate bronze brush.

**TIP #1:** If cleaning a shotgun, the powder and plastic wad residue buildup, which is not visible to the naked eye, must be removed from the inside of the barrel and choke tubes.

Our original MCR® Bore Cleaner and MCR® Extra Strength Bore Cleaner both work very well. We do, however, highly recommend using our Shotgun & Choke Tube Cleaner because of its unique and powerful formula. It is more effective at breaking the plastic wad fouling and much easier and faster to use due to its convenient aerosol package.

Our MCR® Bore Cleaner, MCR® Extra Strength Bore Cleaner and Shotgun & Choke Tube Cleaner are very effective at cleaning rifles. Magazines and removing the plastic and carbon residue from tube ammunition.

**TIP #2:** For stubborn jobs, such as heavy copper buildup, use our Copper Remover after first using the MCR® Bore Cleaner, MCR® Extra Strength Bore Cleaner or Aqua Clean Bore Cleaner.

For heavy lead buildup, we recommend using our Lead Remover solvent.

**Suggested STEP ONE Products:**

- MCR® Bore Cleaner and Conditioner
- MCR® Extra Strength Bore Cleaner
- Aqua Clean Bore Cleaner
- Shotgun and Choke Tube Cleaner
- Copper Remover
- Lead Remover

**STEP 2 CLEAN ACTION**

## CLEAN YOUR ACTION

After clearing the bore, the action needs to be cleaned/degreased. Apply a small amount of Bore Cleaner of your choice. Using a nylon bore-cleaning brush, gently scrub the parts to loosen residue from all areas of the action, except the trigger assembly.

Apply the action cleaner/degreaser on the action to flush away solvent, fouling, old lubricant and residue. (Always re-lubricate after cleaning/degreasing.)

**TIP #1:** Although all of our degreasers perform the same job, you'll want to use our Polymer Safe Quick Scrub or our Aqua Clean Degreaser for firearms that have synthetic/polymer stocks, barrels, receivers, parts, etc.

**TIP #2:** Our Quick Scrub III is very effective but if not used as directed could be harmful to painted surfaces, plastics, polymers and social surfaces.

**TIP #3:** For a non-flammable, non-toxic, odorless, environmentally friendly alternative, use our Aqua Clean Firearms Action Cleaner/Degreaser.

**Suggested STEP TWO Products to Clean and Degrease:**

- Polymer Safe Quick Scrub
- Quick Scrub III
- Aqua Clean Firearms Action Cleaner/Degreaser

**STEP 3 LUBE**

## LUBRICATE ALL MOVING PARTS

After cleaning/degreasing the action, lubricating the moving parts of the firearm is necessary. FP-10 Lubricant Elite® is best for cleaning firearms and most general lubrication needs. It can also be used as a highly effective C.L.P.

For areas that have water tolerance or need lubrication to adhere under heavy demands, analyze extreme heat, use All Weather High-Tech Grease is highly recommended.

Both lubricants can be used on different parts of the action within the same firearm.

**Suggested STEP THREE Products:**

- FP-10 Lubricant Elite®
- Synthetic All Weather High-Tech Gun Grease

**NEW for Ultrasonic Cleaning Tanks!**

Shooter's Choice Ultrasonic Cleaning Solution is specially formulated to work in ultrasonic cleaning tanks. It's biodegradable, non-flammable and non-toxic. Non-corrosive to aluminum or metal parts and effectively breaks up and removes fouling from bores, actions, receivers, trigger assemblies, etc. (Item # UCSUR)

Since 1983, Shooter's Choice has been providing high quality solvents and lubricants for the Firearms Industry. Each product is uniquely formulated and lab tested to achieve specific results. Regardless of the firearm you shoot, your firearm needs to be properly cleaned and lubricated. Trust Shooter's Choice to have the finest products to accommodate your needs. All our solvents and lubricants are proudly manufactured and packaged in the U.S.A.

**STEP 4 PROTECT**

## PROTECT YOUR FIREARMS

To help protect firearms from rust and corrosion, use Rust Prevent on all metallic surfaces including inside the bore or barrel. This superior antioxidant, moisture displacing agent is engineered to preserve all gun metals and will create a greater chance of keeping the firearm from rust, pitting and corrosion. In addition, it will effectively neutralize the acids from airborne salts, nitrogenous and precipitation contact.

Although FP-10 Lubricant will help protect moving parts, Rust Prevent is the most needed product to safeguard the metal on your firearms.

Shooter's Choice Rust Prevent can and should be applied over your FP-10 Lubricant Elite®.

**Suggested STEP FOUR Products:**

- Rust Prevent Corrosion Inhibitor
